Line of business: A business unit of ATI Metalworking Products, an Allegheny Technologies company. Vertically integrated market leader in manufacturing rough mold, semi-finished and finished cemented tungsten carbide and tungsten heavy alloy components. Products serve a wide range of industries including aerospace, medical, oil/gas and power generation. The unique characteristics of tungsten-based products allow it to be used in a variety of applications requiring high density, wear resistance or hard materials to satisfy a particular requirement.

Primary SIC Code – 3356 – Rolling, Drawing, and Extruding of Nonferrous Metals, Except Copper and Aluminum
